Recife,
Brazil

What is the School of the Bible?

The School of the Bible started in 1982 as a church planting effort in Recife, Brazil.

Over the years it has grown and helped plant over 20 congregations.

This is possible through laying a solid foundation by offering Bible courses to the community.

THE SCHOOL OF THE BIBLE

Why have a School of the Bible?

While Brazil is largely a “Christian” nation, most hold a shallow understanding of the Bible and are easily swayed by the prevalent false teachings.

To have a strong biblical foundation, we need your help to continue teaching sound doctrine and discipling strong believers.

THE SCHOOL HAS THREE GOALS:

EDIFICATION

Teach the Bible to the Larger community in Recife and beyond.

TRAINING

Provide sound theology training for local church members and ministers.

EVANGELISM

Teach the Bible using English and Spanish as a second language.

STORIES OF CHANGED LIVES

Edson came to the School of the Bible to learn English. He became familiar with the Bible courses and wanted to find answers to many of his life's questions. After taking several Bible courses, he started to study the Bible in a personal Bible study and decided to follow Christ and be baptized.

Gilson and his wife **Auxiliadora** had walked by the School many times before. They decided to give it a try and took their first course on the Old Testament. After that they could not get enough of the Bible. Through the school they discovered the church and became involved. Soon after, they decided to follow Christ and were baptized.

Carlos is a young seeker who decided to take his first course "How to Read and Understand the Bible" after being invited by a fellow student. He then took a course on the book of Romans and learned about God's grace. It was the tipping point for him to decide to be baptized and follow Christ.

PLANS FOR THE FUTURE

1. Offer more Bible, theology and language courses;
2. More advertising, helping people find the School;
3. Launch more online courses, allowing people from all over Brazil (and beyond) to study the Bible;
4. Provide better support for our staff and equipment for the School;
5. Provide students with personal Bible studies and integrate them with the church body.
